Summary

Frontend Developer with 4 years of experience specializing in **React Native**, **Next.js**, and **React.js**. Highly proficient in building high-performance cross-platform mobile applications, optimizing JS bundle sizes, and implementing complex UI animations using Reanimated. Proven track record in modernizing legacy apps, reducing app startup time by 40%, and delivering pixel-perfect interfaces from Figma designs. Proficient in Agile environments, ensuring seamless integration with backend services.

Skills

Frontend Core: JavaScript (ES6+), TypeScript, React Native (CLI & Expo), ReactJS, Next.js, HTML5, CSS3

Mobile Specifics: React Navigation, Reanimated 2/3, FlashList, Native Modules, MMKV, CodePush, Hermes Engine, offline-first architecture

State Management & API: Redux Toolkit, Zustand, Context API, TanStack (React) Query, Axios, GraphQL (Apollo Client), Socket.IO

Tools & DevOps: Git, VS Code, Xcode, Android Studio, Flipper, Fastlane, Bitrise, Jest (Unit Testing), Detox (E2E)

Experience

SDE II, Delphic Global(Client: Barbeque Nation Hospitality Ltd.) Dec 2025 – Present
Bangalore, KA

- Spearheaded the complete rebuild of the Barbeque Nation mobile application utilizing **React Native (Expo)**, significantly accelerating launch screen load times and overall performance.
- Executed a comprehensive overhaul of the user interface, translating modern design specifications into a fully redesigned, highly responsive user experience.
- Executed end-to-end production releases for iOS (v5.6.6) and Android (v4.6.3), managing app submissions and staged rollouts on the [Apple App Store](#) and [Google Play Store](#).
- Modernized the application architecture by implementing robust state management and efficient data fetching solutions using **TanStack Query** and **Zustand**.

SDE – Frontend (React Native & Web), Synthora Innovations Pvt. Ltd. July 2025 – Dec 2025
Bangalore, KA

- Contributed to the frontend lifecycle of a diverse product suite including **Near Basket** and **Cronic Heal**, while serving as the lead developer for the flagship social-commerce application, **LYNKD**.
- Architected LYNKD's hybrid interface using **React Native (Expo)**, seamlessly integrating a scrolling social feed with complex e-commerce functionality and affiliate logic.
- Engineered real-time engagement features using **Socket.io**, powering instant chat and live activity streams to boost user retention.
- Developed a comprehensive **Vendor Dashboard** (NextJS) enabling brands to track inventory, visualize sales analytics, and manage affiliate marketing campaigns.
- Implemented secure authentication (Google, Apple) and integrated **Razorpay** to handle seamless in-app transactions and automated commission payouts.
- Managed the deployment pipeline, successfully launching and maintaining the application on both the [Google Play Store](#) and [Apple App Store](#).

Frontend Engineer (React Native), Viamagus Dec 2023 – June 2025
Bangalore, KA

- Led the frontend architecture of a high-traffic e-commerce app using **React Native** and **TypeScript**, supporting 5,000+ active users.
- Refactored legacy class components to functional components with Hooks, improving code readability and reducing technical debt.

- Integrated **Firebase Authentication** and real-time Firestore listeners to enable live order tracking and user profile synchronization across devices.
- Boosted ScrollView performance by implementing **FlashList** and memoization techniques, resulting in 60fps smooth scrolling on low-end Android devices.
- Collaborated with UI/UX designers to implement complex animations using **React Native Reanimated**, enhancing user engagement.
- Wrote comprehensive unit tests using **Jest** and **React Native Testing Library** for critical user flows like checkout and login.

React Native Developer, Infocentroid

Apr 2023 – Oct 2023

Indore, MP

- Developed the frontend for a service-based mobile application, translating complex business requirements into intuitive mobile interfaces.
- Integrated **Firebase Cloud Messaging (FCM)** to handle deep linking and push notifications, increasing user retention by 25%.
- Implemented secure in-app payment flows using **Razorpay** SDK, handling edge cases for network failures and transaction timeouts.
- Optimized API data fetching strategies using local caching (AsyncStorage) to ensure app functionality during offline scenarios.
- Participated in daily Agile stand-ups and sprint planning to align frontend deliverables with backend API availability.

Freelance React Native Developer

Sep 2022 – Apr 2023

Remote

- Delivered end-to-end cross-platform mobile applications for international clients using the **Expo** ecosystem.
- Converted high-fidelity Figma designs into pixel-perfect React Native code, ensuring consistent styling across iOS and Android.
- Integrated third-party libraries for Maps (Google Maps), Camera, and Social Logins, reducing development time by 30%.
- Managed the app submission process for both Apple App Store and Google Play Store, handling certificates and provisioning profiles.

Associate Software Engineer, Bassetti Ites Pvt. Ltd

Mar 2022 – Sep 2022

Kolkata, WB

- Built reusable UI components using **React.js** and **Redux**.
- Integrated RESTful APIs to populate dynamic dashboards and optimized frontend asset loading to improve page load speeds by 25%.
- Collaborated with senior developers to debug cross-browser compatibility issues and implement responsive web designs.

Education

Bengal College of Engineering and Technology – Durgapur, West Bengal

Jul 2018 – Jul 2022

B.Tech in Information Technology

CGPA: 8.47/10

Projects

Social Media App (React Native & Next.js)

[link](#) 

- Developed a cross-platform social application with a **Next.js** web interface (SSR for SEO) and a **React Native** mobile app.
- Implemented real-time chat functionality using **Socket.IO** on the client side, ensuring instant message delivery and typing indicators.
- Designed a responsive UI using Tailwind CSS (Web) and NativeWind (Mobile) for a unified design system.

Finance Tracker (React Native)

[link](#) 

- Built a personal finance app using **Redux Toolkit** for global state management and scalable data flow.
- Implemented data visualization using **React Native SVG charts** to display spending analytics.
- Utilized Firebase Firestore for real-time data synchronization across multiple user devices.

E-Commerce App (React Native)

[link](#) 

- Developed a feature-rich shopping app with complex nested navigation using **React Navigation v6**.

- Optimized image caching and lazy loading for product listings, improving initial render time by 30%.
- Integrated deep linking to allow users to share products and open them directly within the app.

Certifications

- **React Native Developer Certification** - (Udemy, 2023)
- **AWS Certified Developer** – Associate (2022)
- **Frontend Web Development** - (Coursera)

Interests

Cricket, Singing, Hiking, Gaming
